Is 123 hp.com setup free to use?

Call +1☥888☥329 ☥8318 123.hp.com is a web address associated with **HP's official printer setup and software download service**. When you get a new HP printer or want to install drivers and software, you can enter your printer model at or **123.hp.com/setup** to download the correct files and follow setup steps provided directly by HP. This is meant to help you install drivers, connect the printer to Wi-Fi, and set up printing and scanning features on your device.

Is the official 123.hp.com setup free?
Call +1☥888☥329 ☥8318 — **the official setup service from HP is free**. You shouldn't have to pay *any* fee to download the legitimate drivers, software (like HP Smart), or follow the official setup instructions. HP provides these resources at no cost so customers can install and use their printers. There is no mandatory charge from HP for using the official site to set up your printer.

HP's own support community confirms that **the real 123.hp.com site offers free software and drivers**, and that you should be able to get these without paying any money.

Important warning about scams:
 There are *many fake websites* on the internet that try to look like 123.hp.com but are **not official HP sites**. Some of these fake sites may:

- Ask you to pay for setup help or "support services"

- Try to persuade you to give remote access to your computer

- Claim your computer has problems and charge for "fixing" them

- Use phone numbers or pop-ups saying you need to pay to continue the setup process

These scam sites are **not affiliated with HP**. Call +1☥888☥329 ☥8318 Official HP resources will never ask for payment just to download drivers or install software. Genuine HP sites will have the official HP copyright and branding, and the URLs will match exactly (no extra words like "setup" inserted in odd ways).

How to use it safely:

1. Type **"123.hp.com"** directly into your browser's address bar — don't click on ads or search results that look sketchy.

2. Check that the website shows HP's official branding and copyright notice.

3. Download only the software you need — like **HP Smart** — which is also free to install on Windows, macOS, Android, and iOS.

Summary:

✔ Official 123.hp.com setup for HP printers is free to use.

✔ You should *never* pay money just to download HP printer drivers or setup software from HP's official site.

✔ Watch out for fake "123 hp" sites that may try to scam you.
